As the largest education exhibition in Central Asia, the International Education Fair is dedicated to expanding international cooperation, promote international education and exchange experience.

IEF provides an opportunity for the students and graduates to explore study abroad options, being an excellent platform for networking and consulting with industry experts. The program of the fair includes plenary sessions, networking seminars, B2B meetings and workshops.

More than 300 universities all over the world, 1 000 international experts and 60 000 visitors participated in IEF 2019.

This year our organization expands its outreach and plans to host an online fair in Spring and an offline one by the end of 2021 for students from Kazakhstan, Russia, Uzbekistan and Kyrgyzstan.

**Chief Executive Officer
Zhanbolat Meldeshov**

- **The Bolashaq Development Fund extends a warm welcome!**

We are pleased to announce that we are hosting our annual International Education Fair (IEF Autumn -2021) in October (end of October, dates to be confirmed), where we will welcome our new and existing international partners.

Bolashaq Development Fund is a non-profit organization based in Central Asia, Kazakhstan, that supports the 4th UN Sustainable Development Goal, Quality Education.

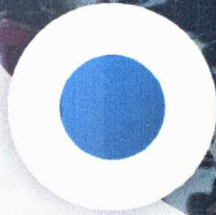

We strive to increase the percentage of people with higher education in Kazakhstan, Kyrgyzstan and Uzbekistan and Tajikistan.

GAZI UNIVERSITY

Atilim University

TOBB University of Economics and Technology

Marmara University

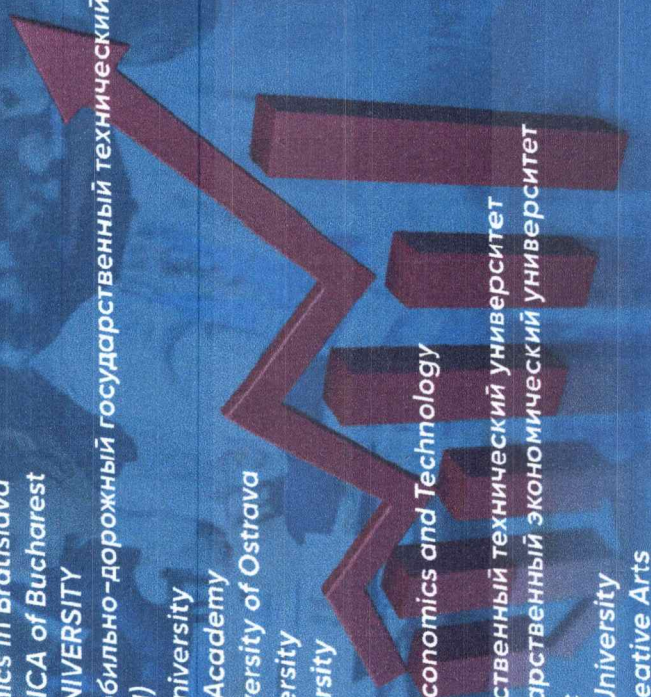

Брестский государственный технический университет

Белорусский государственный экономический университет

University of Miskolc

Hamad Bin Khalifa University

University for the Creative Arts

Due to the demographic increase in Central Asia, we expect a high number of graduates in schools and colleges in the next years.

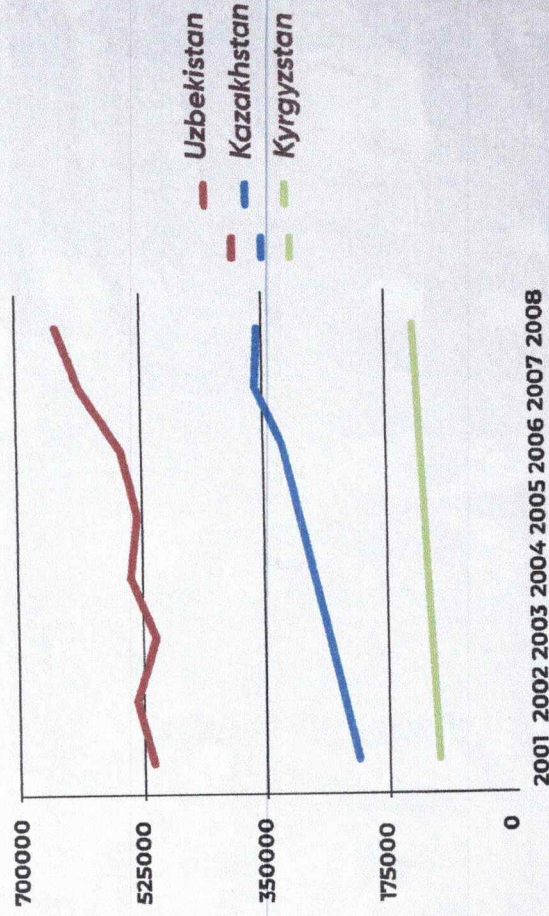

The number of graduates in Uzbekistan has increased to 450 000 applicants with only 35 thousand scholarship quotas. In Kazakhstan: 50, 000 scholarships for 180, 000 graduates. Kyrgyzstan: 4, 500 scholarships for 46, 000 applicants.

Therefore, the ratio of students most probably to stay in their country is 27.7%, 7.7% and 12.3%, for Kazakhstan, Uzbekistan and Kyrgyzstan respectively.

Thus, the number of applicants that can potentially study abroad annually is more than 450, 000.

Most Central Asian universities have exhausted their potential and educate the maximum possible number of students

Birth rate statistics in Kazakhstan, Uzbekistan, Kyrgyzstan.

INTERNATIONAL EDUCATION FAIR

We hope you find this information useful and consider this opportunity to extend your international partnership.

If you have any questions, please do not hesitate to contact us.
