СЕРТИФІКАТ

- буде надіслано на вказану при підключенні електронну пошту
- До 24 вересня (може потрапити до SPAM)
- Якщо було прослухано БІЛЬШЕ 90 % основного часу вебінару 10:15–11:15
- Якщо мав бути і не отримали після 25 вересня напишіть на Iryna.Tykhonkova@Clarivate.com
- Вкажіть дату вебінару та пошту яку вказали при підключенні

План

Які авторські профілі існують?

Їхня мета та завдання.

Що може бути представлено,
які показники розраховуються,

який створити, наповнити та коригувати профілі науковця у Web of Science, Orcid, ResearchGate, Google scholar.

Основні помилки яких припускаються автори.

Відповіді на запитання реєстраційних анкет.

Складнощі при пошуку робіт науковця

Однофамільці

Варіації

Профілі дослідників Web of Science

The screenshot shows the Web of Science interface for an author profile. At the top, there is a navigation bar with the Clarivate logo, language settings (English), and a Products menu. Below this is the 'Web of Science' header with a search bar and a user profile dropdown (Iryna Tykhonkova). The main content area displays the author's name 'Bondarenko, Igor N' with a verified status icon. Below the name, it shows '(Bondarenko, I.)', a 'Highly cited' badge, and the affiliation 'State Institution "Dnipropetrovsk Medical Academy of the Ministry of Health of Ukraine"'. The Web of Science ResearcherID 'GQP-1497-2022' is also visible. A 'Create Alert' button is located in the top right of the profile area. On the right side, there is a 'Verify your Author Record' section with instructions and a 'Go to author search' button. Below that, there is a 'Metrics' section with an 'Open dashboard' button and a 'Profile summary' section with a question mark icon. At the bottom, there is a 'Published names' section with a list of variations of the author's name.

Продемонструйте публікації, показники цитування, рецензії та членство в редколегії в одному відкритому профілі, який легко підтримувати.

Отримайте видимість з меншими зусиллями, керуючи профілем, пропонуючи повну інтеграцію ORCID.

Заощаджуйте час на пошуку експертів у будь-якій галузі досліджень завдяки новим параметрам пошуку та фільтрам.

Зверніть увагу

Якщо зареєструєтесь в організації де відкрито доступ - отримаєте можливість користуватися всіма ресурсами віддалено

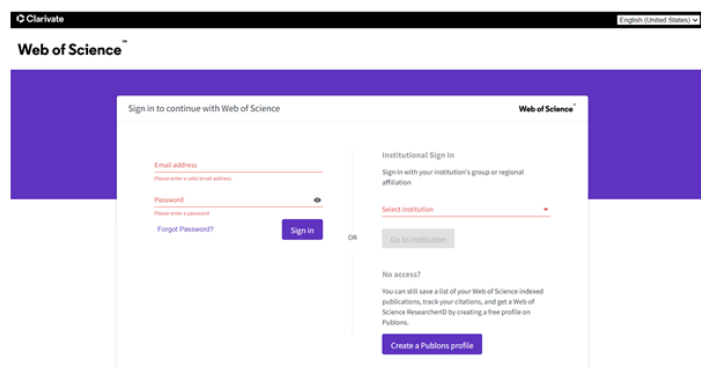

Якщо зареєструвалися за межами організації де є доступ, то буде обмежено доступ, не буде можливості пошуку документів

Не встигли зареєструватися в установі? Зверніться до бібліотеки

What's available?

The screenshot shows the Web of Science login interface. It features a header with the Clarivate logo and 'Web of Science' text. Below the header, there is a sign-in form with two main sections: 'Email address' and 'Password' on the left, and 'Institutional Sign in' on the right. The 'Email address' field has a red error message 'Please enter a valid email address.' The 'Password' field has a red error message 'Please enter a password.' Below the password field is a 'Forgot Password?' link and a 'Sign in' button. The 'Institutional Sign in' section includes a 'Select Institution' dropdown menu, a 'Go to institution' button, and a 'No access?' section with a 'Create a Publons profile' button. The background of the page is purple.

Displaced researcher program

Available on: Web of Science™

Available to: Displaced Ukrainian researchers affiliated to Ukrainian institutions, who do not have their usual IP range access to the citation index

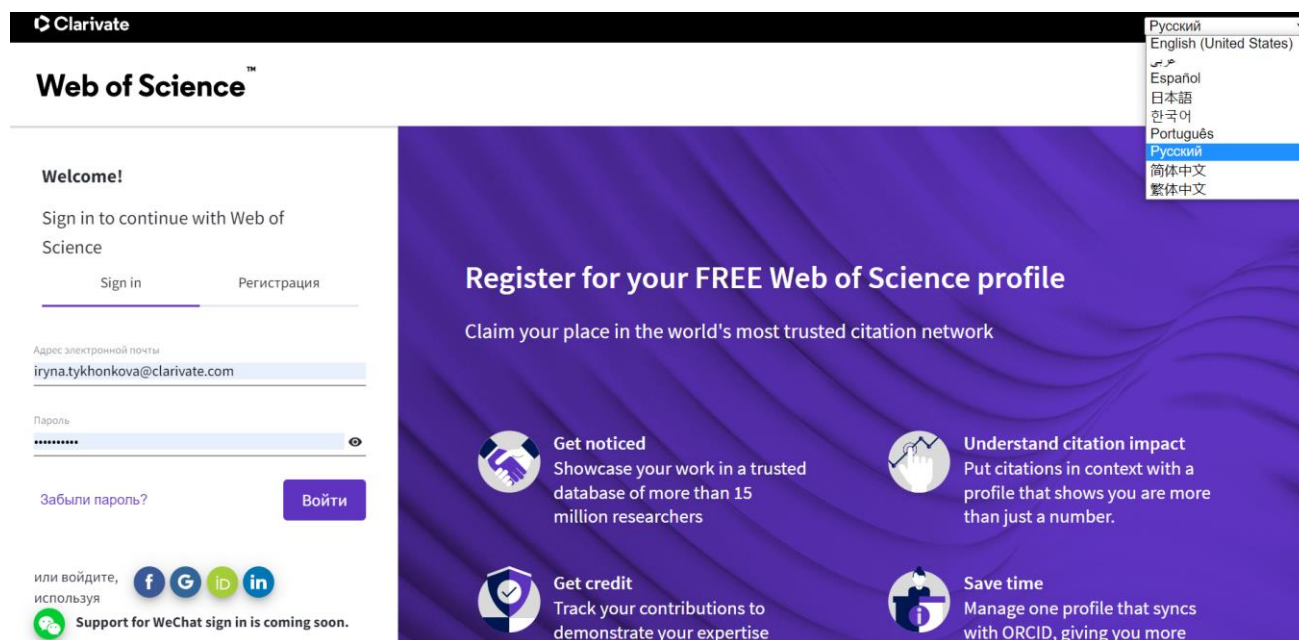

Description: Web of Science access is available to displaced Ukrainian researchers, covered under current contracts through their institutions.

As the world's most trusted publisher-independent global citation database, Web of Science is home to an unrivalled breadth of world-class research literature linked to a rigorously selected core of journals. Continued access will enable Ukrainian researchers to track ideas across disciplines and time from almost 1.9 billion cited references from over 171 million records. Clarivate is providing extended roaming access and offering accounts for researchers to ensure continued access to provide immediate assistance to the Ukrainian research community.

Access guidance: Please contact our Customer Care team at wosg.support@clarivate.com with details of your affiliated institution.

The screenshot shows a web browser window with the URL `apps.clarivate.com/account?app=wos&next=https%3A%2F%2Fwww.webofscience.com%2Fwos%2Fmy%2Fsettings%2Fgeneral%3Fstate%3D%257B%2522navigationId%2522%253A6%257D&tab=email`. The page header includes the Clarivate logo and the text 'Web of Science™'. Below the header, there is a navigation link 'Return To Web of Science'. The main section is titled 'Account sign in & security' and contains the following text: 'You can manage emails, create or change your password, connect sign in methods, and request deletion of your account.' and 'Your account sign in & security changes will apply across Clarivate products.' There are five tabs: 'Personal', 'Email', 'Password', 'Connected accounts', and 'Delete account'. The 'Email' tab is selected. Below the tabs, the text reads: 'You may sign in to your account using your Clarivate password and any of your verified email addresses.' A table lists one email address, which is redacted with a purple box. The text 'Last sign in: 08 дек. 2022 | 02:33 PM' and 'Primary' are visible next to the redacted email. There is a trash icon to the right of the email entry. Below the table is a link 'Add email address'. The footer contains the Clarivate logo, the tagline 'Accelerating innovation', and copyright information: '© 2022 Clarivate'. It also includes links for 'Copyright notice', 'Terms of Use', 'Privacy statement', and 'Cookie policy'.

Редагування профілю

Розкрита панель

The screenshot displays the Clarivate Web of Science interface. At the top right, the user's name "Iryna Tykhonkova" is circled in green. On the left side, a vertical navigation menu is shown, with the "MENU" icon at the top and the "Profile" option highlighted by a large green oval. The "Profile" option includes sub-items: "My researcher profile" with an "EDIT" button, "My records", "Profile notifications" with a notification badge, and "Partner dashboard". The main content area shows search filters for "Web of Science Core Collection" and "Editions: All". Below this, there are tabs for "DOCUMENTS", "CITED REFERENCES", and "STRUCTURE". An "Affiliation" field is populated with "V. I. Vernadskyi National Library of Ukraine". At the bottom right, there are buttons for "+ Add row", "+ Add date range", "Advanced Search", "Clear", and "Search".

Отримайте доступ до позначених списків, сповіщень, історії пошуку та всіх функцій профілю за допомогою простої панелі навігації зліва.

The screenshot shows the 'Profile Settings' modal window in the Clarivate Web of Science interface. The window is titled 'Profile Settings' and has three tabs: 'Edit Profile' (selected), 'Peer Review Preferences', and 'ORCID Syncing'. Under 'Profile Photo', there is a circular profile picture of a woman, a 'SELECT FILE' button, and a 'Remove photo' link. The 'Display name' section includes an information icon and three input fields for 'First Name' (Iryna), 'Middle Name', and 'Last Name' (Tykhonkova). The 'Published names' section shows a list of names: 'Tikhonkova, I Tykhonkova, IA Tykhonkova, Iryna Tykhonkova, I. Tykhonkova, IO' and a toggle switch for 'Display published names' which is currently turned on. A note at the bottom states: 'These are the names as they appear on the publications in your profile. To change a name, contact the respective publisher.' The background shows the 'Web of Science' navigation menu and a user profile for 'Iryna Tykhonkova'.

Часті запитання (Дякую за приклади бібліотеці НТУ «ХПІ»)

Якщо за прізвищем у **WoS** знаходиться декілька верифікованих профілів та колекцій документів, то що робити (дії автора на прикладах з практики).

Наприклад, наш науковець **МІРОШНИЧЕНКО Денис Вікторович**, у якого 4 колекції документів: 2 перших – верифіковані, 2 інших – ні. Що конкретно він повинен зробити, щоб в нього зостався 1 верифікований профіль? Коли він видалить 2-й верифікований профіль та додасть всі свої публікації до 1-го, то чи залишаться не верифіковані колекції документів та чи потрібно з ними щось робити (наприклад, теж видаляти)? Чи вони згодом просто самі ліквідуються, тому що він позначив публікації як свої? Чи зостануться та на не верифіковані (якщо має верифікований профіль) просто не звертати увагу?

Виправити установу

Чому у верифікованих профілях по-різному позначена наша афіліація, або вказана кафедра, а не назва Ун-ту; або тільки адреса? І як автору коректно її додати?

The screenshot displays the 'My Web of Science' profile settings interface. A modal window is open, showing the 'Published names' section with input fields for 'Iryna', 'Middle Name', and 'Tykhonkova'. Below this, a list of 'Published names' is shown: 'Tikhonkova, I', 'Tykhonkova, IA', 'Tykhonkova, Iryna', 'Tykhonkova, I.', and 'Tykhonkova, IO'. A toggle switch for 'Display published names' is currently turned on. A note states: 'These are the names as they appear on the publications in your profile. To change a name, contact the respective publisher.' The 'Primary Organization' section has an input field containing 'Clarivate' and a 'Remove organization' link. The background shows the 'Verify your Author Record' section with a 'Go to author search' button and a 'file summary' section with various metrics.

4. Якщо у колекції документів зібрані публікації декількох людей, один з них – наш, окремої колекції в нього немає, що робити (на прикладах)?

Наприклад, наш науковець **Мезенцев Микола Вікторович**. Його публікація попала до колекції документів російського науковця:

<https://www.webofscience.com/wos/author/record/25456652>

Посилання на його публікацію (афіліація у публікації вказана):

<https://www.webofscience.com/wos/woscc/full-record/WOS:000571406500077>

Який алгоритм дії у таких випадках? Як йому створити свій авторський профіль та заклеїти свою статтю?

Якщо в науковця є 1 публікація, індексована **WoS**, він її знайшов у **WoS CC**, що робити далі? Як позначити статтю, як свою? Спочатку створити профіль, потім її додавати чи можна якось по-іншому.

Author Impact Beamplots

How to read this beamplot

Each purple point on the beamplot represents an article. Its position shows its year of publication (y-axis) and its **citation percentile** (x-axis).
Hover over a publication(s) to see the publication information.
Articles published in the current year are not plotted in the beamplot.

● One publication ■ Two publications ■ Three or more publications

The annual median shows you the average citation percentile of all publications from the same year.

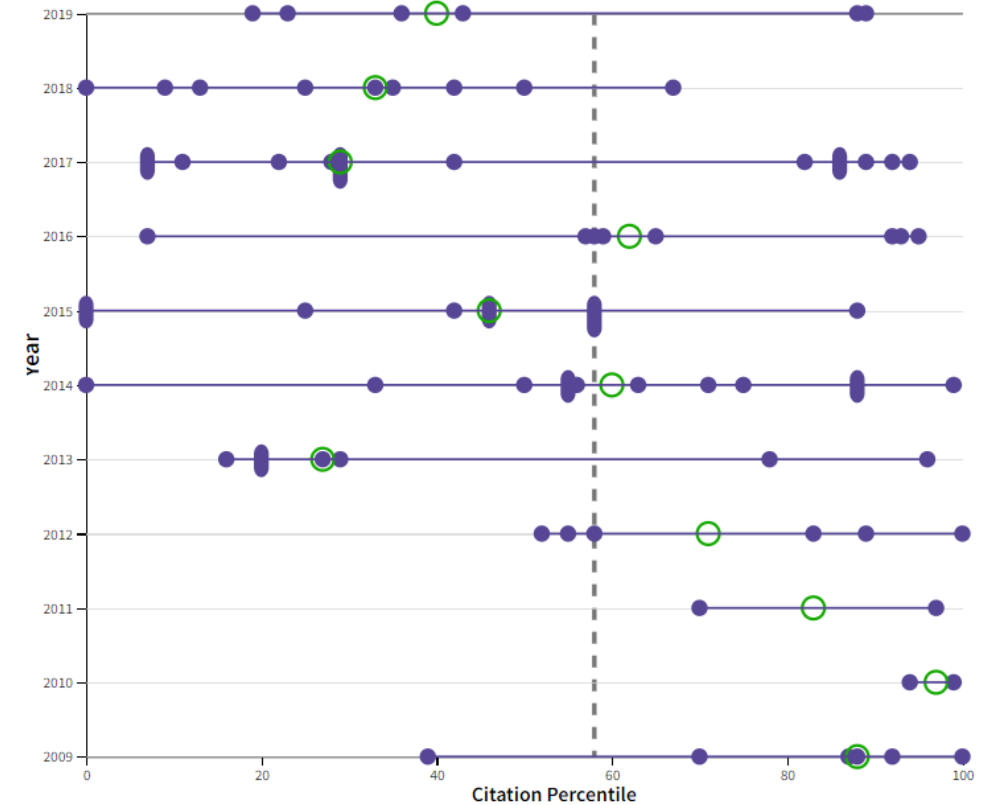

○ Annual percentile median

The grey dashed line shows the overall citation percentile median of all publications in the beamplot.

For more information, visit our [help page on Beamplots](#). [↗](#)

PUBLICATIONS AUTHOR IMPACT BEAMPLOT

Range: Recent 10 Years

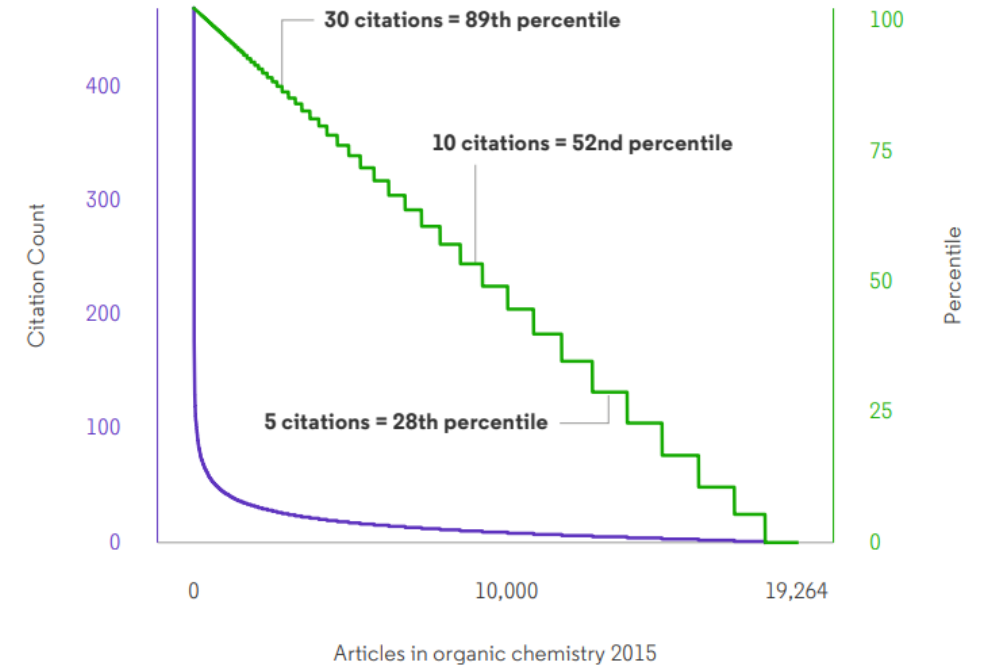

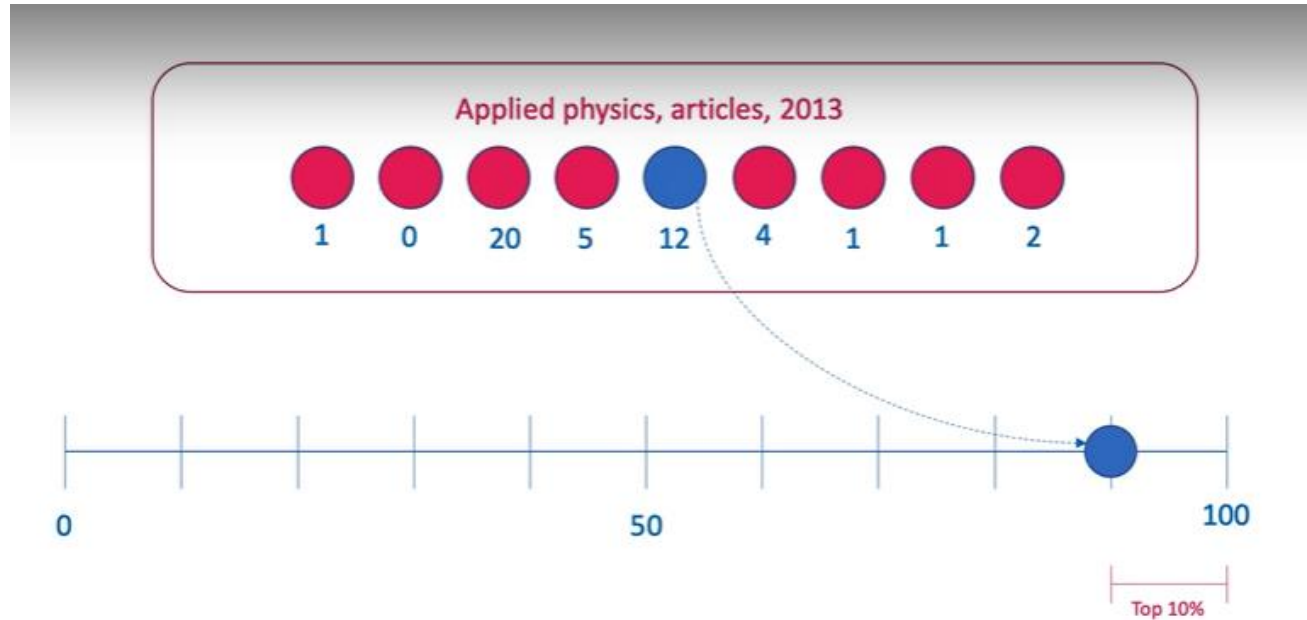

● Citation percentile ○ Annual citation percentile - - - Overall citation percentile median

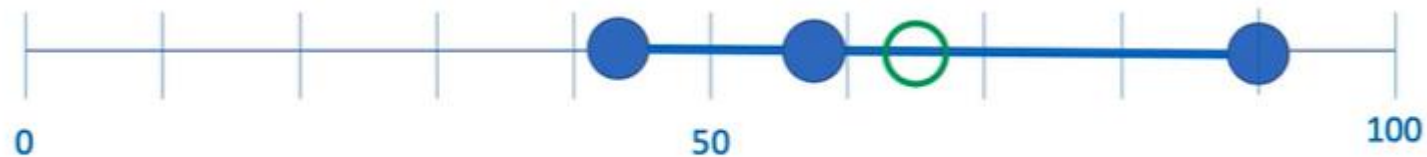

Citation counts are from Web of Science Core Collection; citation percentile data are from InCites.

Percentiles

Because citation distributions are strongly skewed, percentiles provide a good measure of central tendency.

90%+

score means that a paper is among the 10% most cited in the field

When comparing citation counts, it is important to account for variation in how citations accumulate across different fields. Differences in the volume of papers published, the average number of references made (citation density) and the tendency to cite older or more recent work all affect the rate at which citations accrue. Hence, it is common for bibliometric indicators to account for these differences using normalization – the comparison of citation counts to a reference set (or benchmark) that is based on:

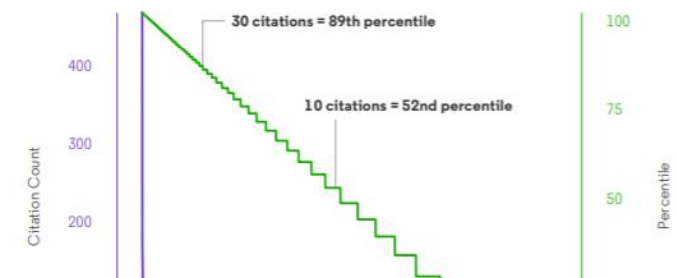

- Papers published in the same year

Using a reference set enables comparisons of citation counts across disciplines. However, the underlying skewness in the distribution of citations is also a problem. Many papers are never cited, most will only collect a few and a very small number will gather hundreds and perhaps thousands of them. This skew means traditional measurements, such as the mean or median, do not accurately convey the average (central tendency) because the data are not normally distributed.

A simple way to address this problem is to use percentiles instead of the raw citation counts. We illustrate this in Figure 2 where the distribution of citation counts is shown for organic

chemistry articles published in the Web of Science in 2015. In purple (left axis), the number of citations received is plotted from 462 on the left (the highest citation count), all the way to 0 on the right and shows the characteristic long-tail distribution. In green (right axis), the corresponding percentile is shown, starting on the left at 100 (for example, 100% of other articles in the distribution have a lower citation count) and dropping regularly down to zero. The figure highlights three points (30, 10 and 5 citations) to show percentile values. The steps that become more noticeable toward the right convey the discrete drops in citation count, with the final step denoting the articles that received just one citation.

Figure 2: Citation counts (purple, left axis) for 19,264 articles published in organic chemistry in 2015 and their corresponding percentile values (crimson, right axis)

A screenshot of a web browser interface. A dark grey dialog box is open, titled 'Works - Add work from DOI' with a close button (X) in the top right corner. The dialog box contains the text 'You can use the full DOI URL or just the identifier value.' Below this is a text input field with the placeholder text 'DOI identifier value or full URL'. At the bottom of the dialog box is a blue button with the text 'Retrieve work details from DOI'. In the background, a portion of a webpage is visible, showing the text 'impact of fibroblasts'.

A screenshot of a scientific article page. At the top, the author's name 'И.А. Тихонкова, канд. биол. наук' is listed, followed by their affiliation: 'Старш. науч. сотр. Института молекулярной биологии и генетики НАН Украины'. Below this is a small square icon and the text 'DOI (DIGITAL OBJECT IDENTIFIER) – ОБЯЗАТЕЛЬНЫЙ ЭЛЕМЕНТ СОВРЕМЕННОГО НАУЧНОГО ИЗДАНИЯ'. The main body of the article contains two paragraphs of text in Russian. The first paragraph discusses the impact of IT technologies and the Internet on the scientific publishing process. The second paragraph discusses the importance of literature processing in the digital age.

ResearchGate

Вступ

ABOUT RESEARCHGATE

We exist to empower researchers.

We started ResearchGate in 2008 to address the problems we saw in the way science is created and shared. Our mission is to connect the world of science and make research open to all. The 20 million researchers in our community come from diverse sectors in over 190 countries, and use ResearchGate to connect, collaborate, and share their work.

Researchgate.net

The screenshot shows the profile page for Iryna Tykhonkova on ResearchGate. The profile includes a circular profile picture, her name, and her title as a PhD Senior Researcher at the National Academy of Sciences of Ukraine. Her location is listed as Kyiv, Ukraine, and there is a link to her website. On the right side of the profile, there are three progress bars: Research Interest at 331.1, Citations at 108, and h-index at 5. Below the profile information, there are tabs for Profile, Research (47), Stats, Score, Following, and Saved list. A blue button labeled 'Add research' is visible. At the bottom of the profile, there is a 'Business card' section with an 'Edit' button and a smaller version of her profile picture. A notification box on the right side of the profile states: '2 of your research items are missing a full-text' and 'Add full-texts to help increase the visibility of your work.' The notification includes a document icon.

The screenshot shows the 'Add your research' dropdown menu. The menu is titled 'Add your research' and has a close button (X) in the top right corner. The menu items are as follows:

- Published research** > Articles, books, etc.
- Preprint** Draft or paper before peer review
- Conference Paper** Add a conference paper
- Presentation** Add a presentation
- Poster** Add a conference poster
- Data** Table, image, sequence, etc.
- Other** > Methods, proposal, code, etc.
- Project**

Google Scholar

History [\[edit \]](#)

Google Scholar arose out of a discussion between Alex Verstak and Anurag Acharya,^[6] both of whom were then working on building Google's main web index.^{[7][8]} Their goal was to "make the world's problem solvers 10% more efficient"^[9] by allowing easier and more accurate access to scientific knowledge. This goal is reflected in the Google Scholar's advertising slogan – "[Stand on the shoulders of giants](#)" – taken from a [quote](#) by [holy Bernard of Chartres](#) and is a nod to the scholars who have contributed to their fields over the centuries, providing the foundation for new intellectual achievements.

Scholar has gained a range of features over time. In 2006, a citation importing feature was implemented supporting [bibliography managers](#) (such as [RefWorks](#), [RefMan](#), [EndNote](#), and [BibTeX](#)). In 2007, Acharya announced that Google Scholar had started a program to digitize and host journal articles in agreement with their publishers, an effort separate from [Google Books](#), whose scans of older journals do not include the metadata required for identifying specific articles in specific issues.^[10] In 2011, [Google](#) removed Scholar from the toolbars on its search pages,^[11] making it both less easily accessible and less discoverable for users not already aware of its existence. Around this period, sites with similar features such as [CiteSeer](#), [Scirus](#), and Microsoft [Windows Live Academic](#) search were developed. Some of these are now defunct; although in 2016, Microsoft launched a new competitor, [Microsoft Academic](#).

A major enhancement was rolled out in 2012, with the possibility for individual scholars to create personal "Scholar Citations profiles", public author profiles that are editable by authors themselves.^[12] Individuals, logging on through a Google account with a bona fide address usually linked to an academic institution, can now create their own page giving their fields of interest and citations. Google Scholar automatically calculates and displays the individual's [total citation count](#), [h-index](#), and [i10-index](#). According to Google, "three quarters of Scholar search results pages [...] show links to the authors' public profiles" as of August 2014.^[12]

A feature introduced in November 2013 allows logged-in users to save search results into the "Google Scholar library", a personal collection which the user can search separately and organize by tags.^[13] A metrics feature now supports viewing the impact of academic journals,^[14] and whole fields of science, via the "metrics" button. This reveals the top journals in a field of interest, and the articles generating these journal's impact can also be accessed.

Google Scholar

Загальна

Вітаємо Вас на українській сторінці Clarivate!

Clarivate є власником і виробником потужних ресурсів та інструментів, що допомагають науковцям проводити, аналізувати, презентувати наукові дослідження на світовому рівні.

На даній сторінці ви знайдете інформацію про основні продукти компанії і їхні можливості, оновлення ресурсів та розклад освітніх програм: вебінарів, семінарів та конференцій.

WoS

Найвідомішим продуктом компанії є платформа наукової літератури Web of Science, на якій серед 15 баз є головна і перша в світі наукометрична база - Web of Science Core Collection (WoS CC) в якій представлено реферативну інформацію з понад 21800 журналів за усіма галузями знань. В WoS CC

Найближчі вебінари

Вебінари безкоштовні, українською, у WEBEX, зверніть увагу що WEBEX не підтримує операційну систему XP та нижче і застарілі версії браузера, оберіть відповідну техніку заздалегідь. Необхідна попередня реєстрація, оберіть зручний час, перейдіть за посиланням, натисніть на слово Register та заповніть анкету. Передбачено сертифікат учасника за умови присутності більше 90 % основного часу вебінару. До зустрічі.

ZOOM

Консультації по профілях установ у Web of Science 8 листопада о 13:00 реєстрація <https://forms.gle/CaHxMsKPw2owy7R79> (повтор від 31.10 та 1.11.2022)

28 вересня Інтеграція платформ Web of Science та ProQuest

Тези: Унікальний контент платформ Web of Science та ProQuest дозволяють бібліотекам та університетам виконувати амбітні завдання. Приєднуйтеся до цієї сесії, щоб дізнатися більше про останні інтеграції:

- Індекс цитування дисертацій ProQuest Dissertations & Theses Citation Index
- Інтеграція між Alma та InCites Benchmarking & Analytics
- Інтеграція між Alma та Journal Citation Reports
- Інтеграція між Primo / Summon та Journal Citation Reports
- Подальші плани

ZOOM серія «Запитай про Web of Science»

Учасники семінарів інколи повідомляють, що хотіли б поставити питання під час вебінару голосом, а не в чаті, але не має такої можливості у WEBEX коли кілька сотень учасників. Тому започатковуємо регулярну ZOOM серію «**Запитай про Web of Science**» що поки проходитиме щотижня по четвергах о 12:15, тривалість до 20 хвилин. Будь-який учасник може долучитися за постійним посиланням та поставити запитання голосом або в чаті. Щоразу будемо розглядати якісь практичні кейси та задачі.

Сьогодні також о 12:15 ZOOM. Долучайтесь
